

FoodLogiQ Connect

FoodLogiQ Connect is the leading cloud-based food safety, traceability and supply chain transparency platform built specifically for the food industry. Leveraging industry leading technology, FoodLogiQ Connect delivers unprecedented food safety and traceability solutions for industry leading food companies throughout the food supply chain.

- Ease FSMA and FSVP compliance
- Streamline supplier management
- Capture and track quality incidents
- Achieve true end-to-end traceability
- Visualize your entire supply chain
- Initiate recalls and stock withdrawals

Take Control of Your Supply Chain with the FoodLogiQ Connect Platform

Manage + Monitor

- Build your own Supplier Dashboard to see exactly which suppliers are not meeting your requirements.
- Ease FSMA and FSVP compliance with streamlined supplier documentation and template workflows to assemble food safety plans, implement corrective actions, support supplier verification, and centralize required recordkeeping.
- Capture and track quality issues with FoodLogiQ's mobile app to manage quality incidents and report them directly to suppliers to recoup costs.

Track + Trace

- Achieve true farm-to-fork traceability from grower to distribution center to the retailer or restaurant.
- Identify the root cause of issues and trace forward to initiate a withdrawal of the affected product when a food safety or quality issue occurs.

Recall + Response

- Initiate and gain real-time visibility to the status of each recall or withdrawal, showing the completion percentage and locations of concern that may need additional attention.

Why FoodLogiQ?

Since 2006, FoodLogiQ has been developing solutions that meet the increasingly complex global food chain issues and vast web of regulations that all modern food companies face.

Our mission is to map the world's food chain, make it as safe as possible, and empower people to make informed decisions about the food they eat. We track millions of data points every day and connect thousands of food companies around the world.

Working hand-in-hand with the food industry's leading innovators, we are continuously developing solutions to meet the unique needs of stakeholders throughout the food supply chain. We are committed to advancing innovation and technology in the food industry together with our customers while delivering the highest standards of products and services.

FoodLogiQ Connect is a single platform built exclusively for the food industry that empowers companies to increase operational efficiency while protecting their brand and their consumers, while providing a variety of solutions to address the increasingly complex global food chain challenges.
