HIGHLY EFFICIENT, COST-EFFECTIVE PROJECT MANAGEMENT DRIVEN BUSINESS AND REGULATORY COMPLIANCE SOLUTIONS

REJIMUS is a preeminent regulatory compliance management consulting firm enabling companies in the Food & Beverage, Dietary Supplements, Animal Feed, Cosmetic and Homeopathic industries to optimize quality operations, improve profitability, and ensure product safety under all applicable cGMPs or other regulatory agency requirements.

CONSULTING EXPERTISE

Regulatory Guidance Services

RGS conducts high-level regulatory and litigation consulting, strategic planning and due diligence for customers and projects requiring extensive industry expertise and resources to effectively plan for growth, investigate, or mitigate high risk legal and regulatory matters.

Marketing Review Services

MRS conducts the development and review of content for labeling, packaging, website copy, claims, claims substantiation and TV or Radio scripts to ensure compliance with current GMP regulations governed by the FDA, FTC or other regulatory body in the marketplace.

Quality Development Services

QDS heads the evaluation, development and implementation of Best Compliance Practices™ and general technical support for clients. Regulatory support encompasses a variety of business types and reliable outsourced QA/QC for customers with ongoing routine needs.

Business Resource Services

BRS is a specialized team that guides customers in strategic planning and management, budgeting, case studies and risk assessments. The team focuses on optimizing sales programs that are impacted by quality/compliance activities, to increase profitability and brand value.
